5th COVID-19 CASE; MORE INFORMATION TO FOLLOW

Palmview, TX– The City of Palmview was notified by the Hidalgo County Health Department that our City has five confirmed cases of COVID-19.

Investigators with the Hidalgo County Health Department are still investigating to determine who this person may have been in contact with, as more details are released we will update our residents.

The City of Palmview continues to urge its citizens to please follow the Stay-at-Home Order to avoid exposure to COVID-19. Doctors nationwide predict the next two weeks will be the most critical as we expect to see case numbers peak.

We cannot emphasize the importance of staying home, following the CDC guidelines and practicing social distancing enough.

The City of Palmview since the outbreak of this pandemic has taken the most aggressive measures to safe guard our residents from this deadly virus and will continue to do so. Although our case numbers have increased the City of Palmview has initiated plans to ensure these residents are properly quarantined to prevent community spread.

We remind our residents we have the most formidable weapon in our possession to defeat this deadly virus, and its for each of our residents to stay home and avoid exposure at all costs.
